San Diego, CA 92121

Mr. Pantera,

I would like to thank you for the FirstIce products you made available for purchase by the USA Women's Field Hockey Team for use at the Beijing Olympic Games.

The FirstIce Cold packs were an instrumental component in the teams Heat and Humidity management plan for Beijing. The FirstIce Cold Packs were used for pre and post activity recovery cooling. The FirstIce Cold Packs versatility, length of cooling and ease of use fit well in the demanding environment of the Summer Games.

Being a non - profit, tax-exempt, organization we rely on individual organizations to support the team's efforts. I'm excited to have had your company included in our efforts to assist the athletes in achieving their competitive goals. It is your products reputation for quality, which our staff and athletes expect in the equipment we use.

We appreciate your support of the USA Field Hockey Women's team!

Sincerely,

Lee Bodimeade  
Head Coach  
USA Field Hockey Women's Olympic Team
